

SPECIFIC COMMENTS

<u>Area</u>	<u>General Rating</u>	<u>Deficiencies</u>	<u>Suggestions for Improvement</u>
Brazil Colombia Ecuador Paraguay Venezuela	Very Good	Reporting needed of political and economic information should be correlated to show inter-related significance of these factors.	Expedite to eliminate time lag.
Chile	Satisfactory	Labor and economic information not always complete.	Same as above.
Argentina	Unsatisfactory	Economic and commercial information deficient. (Probably because of Argentine Government's policy of withholding information.)	
USSR and Hegemonous States	Good to Excellent	More timely political reports and more comprehensive economic, industrial and agricultural information needed.	Evaluated overt information could be forwarded to help fill the gaps. Area-wide surveys would be of material value.
Far Eastern States	Excellent	Broader coverage needed of economic, political, social and military subjects, particularly from consulates (e.g. smuggling activities); more basic intelligence of long-range value.
